

HENDRA PRASETYO

Site Reliability Engineer | Infrastructure & Observability Specialist Depok, Indonesia |
hendraprasetyo94@gmail.com | 089653917925

PROFESSIONAL SUMMARY

Results oriented IT Professional with over 7 years of experience in the banking industry, specializing in Site Reliability Engineering (SRE) and production support. **Integrating automated pipelines via Jenkins CI/CD to build robust observability ecosystems using Grafana, ELK Stack, and SolarWinds.** Proven track record in automating repetitive tasks using Python and Bash to reduce toil and accelerate Service Recovery. Focused on system stability through the application of SRE principles and proactive incident management. .

CORE COMPETENCIES

- **DevOps / CI/CD:** Jenkins (Automated Pipeline), Git.
 - **Observability & Monitoring:** Grafana, SolarWinds, Elasticsearch, Tableau.
 - **Automation & Scripting:** Python, Bash, SQL.
 - **Infrastructure & Ops:** Linux Administration, AS400 Core Banking, Network Monitoring.
 - **Incident Management:** Root Cause Analysis (RCA), ServiceNow, Jira.
 - **Cloud & Data:** Azure AI, Microsoft Fabric, SQL Server, Oracle.
-

PROFESSIONAL EXPERIENCE

PT Bank SMBC Indonesia Tbk | Jakarta, Indonesia

Total Tenure: August 2018 – Present

IT Monitoring & Service Recovery Engineer (Octopus Squad – SRE Task Force) | May 2024 – Present

- **Observability Implementation:** Designed and managed end-to-end monitoring systems using **SolarWinds, Elasticsearch, and Grafana** to provide real-time visibility into server health and business-critical applications.

- **CI/CD Automation:** Leveraged **Jenkins** to automate the deployment of monitoring configurations and recovery scripts, ensuring consistent and scalable infrastructure changes.
- **SRE Automation:** Developed automation scripts using **Python and Bash** for proactive anomaly detection and a significant reduction in manual operational *toil*.
- **Dashboarding:** Visualized system performance metrics through **Tableau** to drive data-driven infrastructure capacity planning for the management team.
- **Emergency Response:** Spearheaded technical coordination during critical incidents to ensure service restoration within strict banking SLAs.

IT Production Support L2 | August 2020 – Present

- **Incident & Problem Management:** Resolved complex incident tickets via **ServiceNow and Jira**, performing deep-dive analysis on application logs to identify and remediate root causes.
- **Database Management:** Executed complex SQL queries for data remediation and technical reporting for business stakeholders.
- **System Operations:** Operated **AS400 Core Banking** systems to support seamless daily banking operations.

IT Production Support L1 | August 2018 – August 2020

- **First-line Troubleshooting:** Handled initial incident response, service restarts, and basic error log analysis.
- **ATM & Card Support:** Supported the **ITCCMS** system to verify ATM card linkages and ensure backend data accuracy.

TECHNICAL SKILLS & TOOLS

Category	Tools / Technology
Monitoring	Grafana, SolarWinds, Elasticsearch, Tableau
DevOps	Jenkins, Git
Languages	Python, Bash, SQL
Platform	Linux, AS400, Windows Server
Ticketing	ServiceNow, Jira

EDUCATION

- **Bachelor of Information Systems**, Nusa Mandiri University (GPA: 3.28) | *Graduated 2021*
 - **Diploma of Management Information Systems**, Bina Sarana Informatika University (GPA: 3.23) | *Graduated 2016*
-

CERTIFICATIONS

- **Microsoft Certified: Fabric Analytics Engineer Associate** – Dicoding Indonesia, 2026
 - **Microsoft Certified: Azure AI Fundamentals** – Dicoding Indonesia, 2026
 - **Applied Data Science with Microsoft Fabric** – Dicoding Indonesia, 2026
 - **Generative AI Application Development with Microsoft Azure** – Dicoding Indonesia, 2026
 - **Data Processing Fundamentals** – Dicoding Indonesia, 2026
 - **Machine Learning for Beginners** – Dicoding Indonesia, 2026
 - **Python Programming Fundamentals** – Dicoding Indonesia, 2025
 - **Structured Query Language (SQL) Fundamentals** – Dicoding Indonesia, 2025
 - **Fundamentals of Data Science** – Dicoding Indonesia, 2025
 - **Fundamentals of Artificial Intelligence (AI)** – Dicoding Indonesia, 2025
 - **Discover AI in Daily Life** – Google, 2025
-

ADDITIONAL INFORMATION

- **Languages:** Indonesian (Native), English (Professional Working Proficiency).
- **Focus:** Experienced in bridging legacy banking systems with modern technologies to achieve optimal system stability and performance.
